

TR Series

Plug-In DC Power Supply Transformers

SDC's **TR series** of plug-in power supplies are electrical devices - transformers and rectifier circuitry to convert 120VAC line voltage to low voltage DC.

MODELS

TR12 Regulated 12 VDC Plug-In Power Transformer, 1 Amp

TR24 Regulated 24 VDC Plug-In Power Transformer, 1 Amp

TR12

TR24

STANDARD FEATURES

- Regulated 1 Amp plug-in power
- Thermal overload protection
- UL listed, Class 2

SPECIFICATIONS

	TR12	TR24
Primary Input	120 VAC, Grounded	120 VAC, Grounded
Secondary Output	1 Amp @ 12 VDC Regulated	1 Amp @ 24 VDC Regulated
Connection	Screw Terminals	6 ft Wire Leads

HOW TO ORDER

FOLLOW STEPS FOR ORDERING

 Designates optional step

1| SPECIFY MODEL

TR12 Regulated 12 VDC Plug-In Power
Transformer, 1 Amp

TR24 Regulated 24 VDC Plug-In Power
Transformer, 1 Amp

STEP NUMBER: 1
