

## 25 Series

Value 1/2" Latchbolt  
Electric Strikes

SDC's 25 series value 1/2" latchbolt electric strikes are centerline latch entry strikes designed for use with cylindrical locksets and metal frames. 25 series strikes accept 1/2" throw latchbolts or up to 9/16" throw latchbolts with 1/8" door gap.

The compact low profile design with an internally mounted solenoid and factory supplied mounting tabs enables quick and easy installation where jamb space is limited. The heavy duty construction makes 25 series strikes ideal for high traffic installations.

Centerline latch entry strikes require the latch to enter at the strike "centerline" located exactly between the top and bottom of the strike faceplate.

- Low profile
- Fewer moving parts
- Stainless steel components
- Stainless steel square corner faceplate
- Durable die cast housing body
- Corrosion resistant
- Mounting tabs included
- Non-handed
- Internally mounted solenoid
- Field selectable operation
- Field selectable dual voltage
- Voltage and current spike protection
- Screw terminals
- Latch status (LS)
