

IPRW Series

Wiegand Readers

SDC's IPRW series is the perfect companion for our IPPro® Controller.

The IPRW wiegand proximity reader is a sleek, sophisticated reader that will interface with most access control systems. It combines a 125KHz HID-compatible proximity reader and standard 26-bit wiegand output with compact design for surface or mullion mounting. An IP67 rated housing makes the IPRW reader suitable for use in indoor or outdoor environments. An LED indicator lights red to indicate power, or green to indicate an authorized access (controlled externally by host). The audible annunciator will indicate when a card is present or can be controlled externally. When paired with SDC's IPPro® Single Door Controller, compatibility is guaranteed.

- Entry / Exit reader for IPPro controller
- Standard 26-bit wiegand output
- HID proximity compatible (125 kHz)
- Black & white snap-on covers included
- Mullion or single gang mount models
